North American Championships are conducted each year, both outdoors and indoors, between skaters of the United States and Canada. The sites of the events alternate each year between the two countries. An Articles of Alliance governs this friendly competition. In addition to individual medals and medallions, skaters also compete for a traveling trophy which goes to the country amassing the most total points.

Dear friends,

It gives me great pleasure to extend to all the participants in this annual friendly competition between American and Canadian Indoor Speed Skaters my best wishes of success.

The North American Championships remain for both countries a most important element in the development of international calibre athletes as they provide to a good number of skaters a first opportunity to test their skills and abilities in an international setting.

Let us hope our respective Associations can maintain these annual championships alive in the future.

Bonne chance à tous and may the best win.
